

Neighborhood Familiarity

Our assisted living community offers a neighborhood concept unlike any other area properties. To foster a sense of belonging, our personal care home is divided into different sections of acuity. We believe this approach alleviates anxiety while promoting true kinship.

Each neighborhood provides a comfortable, homelike setting where residents enjoy elegant décor and traditional furnishings on the inside, with beautifully landscaped outdoor courtyards and gardens.

Neighborhoods also feature their own dining rooms and serving kitchens, allowing residents to enjoy daily meals with recognized and familiar caregivers and neighbors. Chef-inspired meals are served and we're able to personalize meals to meet a resident's nutritional needs.

We offer a variety of studio and one-bedroom designs all with private bathrooms, kitchenettes and plenty of closet space.

About Us

Canterfield of Oak Ridge is a Medical Development Corp community affiliated with Methodist Medical Center of Oak Ridge. MDC and its executive team have developed senior housing and hospitality facilities in the southeastern U.S.A. since 1983. We believe that our partnership will combine expertise in both health care and hospitality to bring a higher level of service to the senior community of Oak Ridge.

Assisted Living

Engaging, Fulfilling Lifestyle

Research shows when seniors are in an environment that nurtures dignity, independence and interaction with others, their physical, emotional and mental well-being are enhanced. That's exactly what we strive for in our 91-unit assisted living community at Canterfield of Oak Ridge.

Our assisted living community is predicated on the 'social model' assisted living type. It encourages active lifestyle while supporting their daily living needs with our staff to afford continued self-independence. We offer plenty of opportunity for residents to enjoy a full and enriching standard of living. Because we offer different levels of care under one roof in our various neighborhoods, couples can continue to live together if someone's health care needs change.

Assisted living residents have the flexibility to choose how they spend each day. Our diverse and engaging programs provide something for everyone. We offer a wide variety of cultural, educational and social activities, from day trips to visiting local places of interest, residents always have something entertaining to enjoy – both on and off our community campus. We always have individual abilities in mind.

Peace of Mind

Our assisted living care services are individualized to each resident's specific needs. Some residents may only need gentle medication reminders or a little assistance with dressing and bathing. Others need more help because of mobility challenges. Whatever individual resident care needs may be, our caring, compassionate, attentive team of nurses and trained caregivers stand ready to assist 24 hours a day, seven days a week. Rest assured, our attention is always focused on providing quality care and an enriching lifestyle designed to maintain a resident's optimal independence. In accordance with this ideal, Canterfield of Oak Ridge's affiliation and relationship with Methodist Medical Center will continually contribute to this peace of mind.

Memory Care

For residents with early-stage Alzheimer's disease and other memory challenges, we offer a comprehensive memory program. Our program enhances the lifestyle of those with early memory loss by giving them an opportunity to live an active and fulfilling life while enjoying continuity through Canterfield's neighborhood concept with the same staff members day in and day out. Our goal is to focus on the dignity and the quality of life of each of our residents.

Just the right amount of support is offered and adjusted whenever necessary. Given proper nutrition, programming and surroundings, we believe residents naturally function at a higher level.

Our team is compassionate and specially trained in memory care. Our staff to resident ratio is high so we can provide more one-on-one care. To help ensure our residents are active and involved, a Program Director creates a wide variety of structured and fun activities that help with socialization and memory enhancement, while evoking a sense of purpose among residents.

Our memory care program is delivered in a specially designed secure wing that features pleasant surroundings to create an atmosphere that is comforting, calming and feels like home. The design provides cues and gentle reminders of the day's activities that maximize independence in a separate, safe and protected environment as well as a secure garden and walking path.
